PRESIDENTS REPORT

Hello to all members

Another month gone and the weather was good for the day out to Somerset dam. Sorry I could not go all the way after mapping out the run, but from a number of phone calls I received it was enjoyed by all, the BBQ was a success, thanks to all who helped with the preparation.

Several members have contacted me regarding the RACQ MOTORFEST on 29th June to be held at EAGLE FARM RACECOURSE. It would be good if we could go as a club display. If you want to attend please contact Peter or a committee member. The Caboolture show is on again the same weekend as the Combined Council Rally 7th & 8th June. For the members not going to the Rally and would like to participate in the Grand Parade at the show please let us know ASAP so we can liaise with The Show Society. A two or three day weekend on 12th, 13th & 14th June is also being arranged to Burrum Heads, possible subsidy by a sponsor being negotiated, limited spaces available, please contact John and Donna on 5497 6941 or mobile 0412 056 455.

See you on the road and drive safely.

John Embleton

FROM THE SECRETARY'S DESK

Hi Members

For those who left us at Kilcoy and didn't continue on to Somerset Dam on the April rally, you missed a great drive and fabulous BBQ lunch. Thanks to all who contributed towards our BBQ.

Our Club first-aid kit keeps coming back to bite us on the backside eh! Unfortunately we didn't have it at the April run and it was needed. A huge thankyou to Geoff Kruger and Michelle Hogg for doing the John Landy sprint to their vehicle and coming up with their own first-aid kit. Our dear Ita was victim to a heavy table collapsing onto her shin and was in desperate need of some tender loving care. Once presented with Geoff & Michelle's First-aid kit however, our stand-in "nurses" Jan Blake and Sue Droughton took over and wrapped up Ita's leg and stopped the bleeding. At last enquiry I believe Ita is on the improve.

There was some interest shown for a mid-week run to cater for those who have other commitments on Sunday mornings. We have decided to trial one in May to see if members are keen. It will be Wednesday May 14th. Please see below for further information. So hope to see you there if you can't make it to the Sunday May Rally run to Petrie on May 4th.

With both Shirley & Gillian away I will update you on their work for our forthcoming events. Sunday 27th July lunch has been confirmed at Trader Dukes, 291 King Street, Caboolture. Kim has checked out the car park there and they have over 100 available. If we get there at 10am for a Show N Shine, our 30 to 40 vehicles won't inconvenience any of the other traders there. You have the choice of a T-Bone, Chicken Breast Schnitzel, Crumbed Snapper or Quiche Lorraine (all served with salad, chips and a choice of sauces). It will be a member's price of \$10 per head for lunch. Please get your names in and dollars as they need to have meals booked in and can cater for 60 of us.

The AGM breakfast venue has now been confirmed at Solander Lake Bowls Club, Sunderland Drive, Banksia Beach, Bribie. The Adults Christmas Party has also been confirmed at Finnigans Chin Restaurant, 1450 Anzac Avenue, Kallangur, for December 6th. So get your names in for that as soon as possible so they can confirm numbers. This will also be subsidised by the Club and we will advise how much after the next committee meeting.

Happy motoring - catch u on the May 4th Rally or May 14th mid-week run

Carol Bowers

CHACC MID-WEEK RUN

Wednesday May 14th, 2008

Something different!! A Club sanctioned mid-week social run so you can use your "S" plate vehicle legally more than once per month.

For this inaugural 2008 run to Woody Point at Redcliffe (Map 91 - N19 entry is just before Lilla Street round-a-bout). We will meet at the BP on the southwards side of the Bruce Highway in time to have a coffee or morning tea if you wish, for a 10.30am departure, OR you can go directly to the BBQ area at Woody Point, Redcliffe for a B.Y.O. BBQ lunch and social get-together.

If this looks like being successful, we will arrange the next mid-week run over lunch. This is a chance to get to know some of your fellow Club members who cannot make it on our regular Sunday morning runs.

Contact Peter Rohan (5428 6025) or Kim Bowers (5495 4683) with any queries.

LETTER TO THE EDITOR

I would sincerely like to thank the committee & members for your wonderful support that I received for my fundraising "Shave for a Cure". Thanks to your generosity, you helped me raise \$1,000.00. It was my privilege to be involved in a wonderful campaign to help the Leukaemia Foundation raise money for a wonderful cause.

Once again my sincere thanks, to a wonderful group CHACC.

March Games Night at the Smith's

All in the cards.....

For those of you "game" enough to come along... it was "on the cards" that you would have a great evening.. Smith's "darted" around preparing house & yard for our arrival... OK enough of the corny lines..... you would've had a great night, thanks to a really big effort from the Smith's, gosh Gillian had Geoff fixing all manner of things for the night.

At the last minute some of the activities planned for the lawn had to be canned due to rain, but luckily some were able to be transferred undercover & along with various board & card games there was enough to keep most amused for a good part of the evening. (Geoff wouldn't let me throw darts though, maybe because I told him his back board wasn't big enough, the way I throw them???)

Thanks to those who bought along a plate as well, helping make the food side very successful as well. "My" team & I had to be prised away from our game as all were heading off, once Donna & Moya got the hang of it they didn't want to leave, 'cause they were winning of course!!!! I was ready to "earthquake it!!"

Excellent food, even better company & a top venue, thanks heaps to Gillian & Geoff (that drain pipe saved today Geoff!!) for the use of their home for this first "games evening".

Thanks again to the members that showed their support & came along.

Shirley Jefferay

RAFFLE DONATIONS

Could members wishing to donate raffles for the monthly raffle prizes please see Gillian or Shirley with them ASAP. We are getting short on donated items and will have to purchase some if they are not donated. Remember this makes money for your Club that all members benefit from, so please help out if you can. If you are not sure what to donate, see one of us for suggestions.

Thanks

Gillian & Shirl

ADDITIONAL ENTERTAINMENT/SOCIAL GATHERING IDEAS...

At the last committee meeting, it was suggested to ask members if they had any ideas of additional entertainment/social ideas which the club could do and incorporate into a run. One suggestion from a committee member was to the Yatala Drive-In Theatre who hosts a classic car night twice a year (we will look into this for more details).

If any member has any ideas/suggestions, please talk to one of your committee members.

A First Time Experience - Notes from a "Rally Virgin"

Sunshine Coast, Qld to Echuca National Rally, Easter

When Les (Arnold) first suggested "we take a run down to Echuca in the '34 Morris Cowley 6 Sedan for the Morris Register Rally", I thought, "hmmm, yup - good fun!" Nothing ventured, nothing gained be open to new experiencesbroaden one's horizons.....Well, I ventured, I gained, experienced a lot and my horizons have been broadened a bit too much I think!

The trip started uneventfully on the Saturday prior to the Easter weekend. That is, we managed to drive out of the garage before the first altercation occurred. I apparently set the GPS

incorrectly so we ended up driving pretty much through Brisbane instead of around Brisbane. Not a problem to me - just a new way of looking at the scenery but for Les, it meant extra time unnecessarily spent on the road. Grumble, grumble, whinge and moan.

Anyway, we finally got underway and headed south-west. 'Ms Blue' performed brilliantly up through the mountain range and Les was very proud of her. But disaster was lurking and at Warwick the amp light was malfunctioning. At Goondiwindi the exhaust gasket blew and the engine developed what Les called "a miss" (whatever that is). NRMA was called which proved disastrous because the mechanic thought he could solve all our problems by drilling holes in the distributor cap. Les furious but I forgave the mechanic because he looked pretty cute. As we continued on to Coonabarabran, Ms Blue was only running on battery. Les mumbled something about a possible coil shorting out or something. As far as I was concerned, the old car still went, despite Les looking very worried. I thought he just needed to keep a stiff upper lip; I couldn't hear the "hissing" noise or anything untoward (!).

We arrived at Dubbo on Tuesday. Les found a garage and a friendly mechanic and I found a beautician and had a massage. After all, I reasoned, there's no point in having **two** stressed out drivers. By this stage, I realized it would be wise to lay low as the injury toll to Ms Blue mounted. Burnout valves in 2 and 4. 25lb compression. Car now running on a re-charged battery (overnight assistance from motel managers with extension cords - bless every one of them). She's chewing up the fuel. Is this what a fun holiday is all about?

Staying overnight at the Zoofari Lodge, I thought "Aha - finally! A real holiday!" but it was really just a brief figment of my imagination, as immediately after the morning tour and breakfast, we were out of there. How foolish of me to think this would be a sightseeing adventure! We're physically surviving the car trip but will the emotional scars prove too much????

At Parkes Les now looking extremely concerned and fed up to boot. Reckons he's going to sell Ms Blue and fly home. I was horrified! How could he be so cavalier about such a gorgeous old car? I defended Ms Blue in front of bystanders, who all stood by me. Les truly in the dog house now.

Finally to Echuca - spluttering and wheezing (and not just the car). By this time even I could hear weird noises. Scary weird noises what's more. Les worked feverishly on the vehicle and she did make it to the main event (and I thought she looked very smart too.) However, the strain was telling on both Ms Blue and myself by the evening. On Easter Sunday we headed off and the poor old girl just managed to limp into Albury and that was the end of the line (I'd punched in the wrong GPS directions AGAIN so we ended up driving waaaaay out of our way - oops!) RACQ took over in the nick of time.

One final note. At every motel Les would ask the staff for old towels to use as rags and would get to work, tweaking Ms Blue into shape for the next day's drive. He amassed such a vast quantity of used towels that I threatened him with Chinese Laundry torture if he collected any more. At Echuca he nearly gave the poor manager a heart attack, when he saw Les with an array of what he thought were his motel's good towels, covered in oil and muck and spread out under and over the car. The manager was so overcome with relief that he promptly handed over **another** pile of old towels to Les in gratitude. (We have now cornered the market on old motel towels and Les is considering setting up an Ebay site to pay for car repairs.)

Did I have an exciting time? Well, yes, but not in the manner in which I had envisaged. Did it broaden my horizons? Definitely. We met the most wonderful people and I hope to catch up with those friends again. And although clusters of concerned people would gather around the car and talk in hushed voices about exhausts and diffs and valves and hissing noises, I blithely patted Ms Blue and thanked her for giving me a fabulous experience that I wouldn't have missed for the world.

On arriving home, Ms Blue was discovered to have two burnt valves, burnt out generator, one blown exhaust gasket (again) plus now it seems the diff bearing has collapsed. This proved to be making all the noise, not the gearbox after all.

Widge Dooley

P.S. Les even let me drive Ms Blue! (Although he gently steered me back onto my side of the road on several occasions, with the reminder that "other drivers are allowed on the highway too you know Widge".)

Additional Note:

Besides the diff and generator letting me down these are photos of the valves in the '34 Morris Engine which had a \$6,410.80 complete engine rebuild, (that does not include the head). They did not replace the guides and put the original valves back in and put the inlet one's back in the exhaust, all valves are numbered 1-12 and were put back all mixed up. Original quote to do the job was \$3,500.00. (If you want to have a closer, more detailed look at the photos, just ask me)

Regards

Les

Gardening by remote

Contributed by Ray & Joan Dinte

An old man lived in the country. He wanted to dig his potato garden but it was very hard work as the ground was too hard. His only son, Fred, who used to help him, was in prison. The old man wrote a letter to his son and described his predicament.

Dear Fred,

I am feeling pretty bad because it looks like I won't be able to plant my potato garden this year. I am just getting too old to be digging up the garden plot. If you were here all my troubles would be over. I know you would dig up the plot for me.

Love Dad

A few days later he received a letter from his son -

Dear Dad,

For heaven's sake Dad, don't dig up that garden! That's where I buried the BODIES.

Love Fred

At 4am the next morning FBI agents and local police arrived and dug up the entire area without finding any bodies. They apologised to the old man and left. The same day the old man received another letter from his son -

Dear Dad

Go ahead and plant the potatoes now. That's the best I could do under the circumstances.

The Wife

A Police Officer pulls over a speeding car. The Officer says, "I clocked you at 80km per hour, sir." The driver says, "Gee, Officer I had it on cruise control at 60, perhaps your radar gun needs calibrating." Not looking up from her knitting the wife says, "Now don't be silly dear, you now that this car doesn't have a cruise control." As the Officer writes out the ticket, the driver looks over at his wife and growls, "Can't you please keep your mouth shut for once?" The wife smiles demurely and says, "You should be thankful your radar detector went off when it did." As the Officer makes out the second ticket for the illegal radar detector unit, the man says through clenched teeth, "Darn it, woman, Can't you keep your mouth shut?" The Officer frowns and says, "and I notice that you're not wearing your seat belt, sir. That's an automatic \$75 fine." The driver says, "Yeah, well, you see Officer, I had it on but took it off when you pulled me over so I could get my license out of my back pocket." The wife says, "Now dear, you know very well that you didn't have your seat belt on. You never wear your seat belt when you're driving." And as the Police Officer is writing out the third ticket the driver turns to his wife and barks, "WHY DON'T YOU PLEASE SHUT UP?" The Officer looks over at the woman and asks, "Does your husband always talk to you like that, Ma'am?" "Only when he has been drinking" replies the wife.
