SOCIAL UPDATE:

- **GOOSE CLUB** - This was inaugurated on our February 'fish n chip' run 2014. As of the 11th draw on the March 2015 run, no one had been in attendance to claim it. UNTIL our April 5th run and the winners were.....Andy & Sally Byrne. Congratulations on taking home the \$130. Next month's draw will recommence at \$10.
- **Renal Unit/Northlakes** – Presentation of all CHACC donated items will be this Wednesday 22nd. of April. Should have some pictures to put in the next SCN.
- **Huddy & Ita's 91st Get-together** – As an adjunct to Graham's write-up of the day, I think it is the first time since I have been a member of CHACC that I have seen **eight** Life Members at the one event. Thank you to all who were able to make it – especially Gloria Groves who interrupted hers & Stan's travels to be there.
- **Bauraba Creek Annual June run** - Please note in your Calendar this is now the **THIRD** Sunday in June (21st). Date had to be changed to accommodate our hosts' change of circumstances. We have also invited BNAA club and hope this change of date hasn't affected their members wishing to attend.
- **Sergeant of Arms Fines** - I have had word from one of our members that one of the reason members are not coming to runs is that they disagree with the S.O.A. fines. If any other members have similar pros OR cons, please contact one of your committee members so we can discuss.
- To all members in ill health or in hospital we wish you a speedy recovery.

Mid-Week Run

WEDNESDAY 15TH April, 2015

Hullo to all members. This is my first run this year due to medical issues and it feels good to be back on deck again. Thanks for the thoughts to both Jan and myself expressed through the SCN.

We had 17 members show up for a run organised by Neville & Barbara to visit Hudson & Ita Davies at their home in Ningi to help them celebrate their collective 91st Birthdays.

It was a beautiful day as we all converged onto their property and proceeded to settle ourselves into their BBQ area. Some of us had a wander around the numerous cars in Huddies' possession and could not help thinking, will some get on the road again. As it was nearing lunchtime Carol broke out the Birthday cake and after Huddy and Ita cut it, the cake was then shared around everyone, and it was very yummy too (thanks Carol). The party proceeded to break up after lunch and I hope both Huddy and Ita had a nanna nap after all the excitement.

Best wishes to them both from all members.

Wanted

DOB-INS

Special call to ALL members

I know it's a long way off, BUT things happen throughout the year to members that I can & will get them for at the annual Xmas party, just when they think everyone has forgotten, I can pounce....with YOUR help.

BUT I need you to let me know, you can catch me on runs, or give me a call, tell Carol, she will get it to me, before you forget, you let me know, I can colour it up a "tat", so shoot me, it doesn't HAVE to be "truthful"!!!! Just worth a little light hearted humour!!!!

Thanks members, look forward to hearing from you!!!!

Oh & "mums the word!!!"

Cheers Shirl

BUM A RIDE Feel like catching up with your CHACC mates but don't feel like driving?

Unable to drive – not feeling well, but need an outing? Run too long – don't feel like driving that far? If you answered YES to any of the above scenarios – then pick up the phone and request a lift or wander down to the Sundowner and get a lift from there! Phone our Rally Director, Graham on 33859898.

This Month's Car Quiz

Which car company's badge consists of a circle, divided into 4 quadrants of alternate blue and white? Feel free to phone 54940720 or email your answers to the editor at editor@chacc.com

Last month's Quiz Answer

We have three winner for last month's quiz, Alex Gallacher, John Westerhuis & Shirley Jefferay

Q: Until Henry Ford formed his own company in 1903, which great inventor-friend employed him?

A: Thomas Edison was an American inventor 1847-1931

Did You Know?

The "lead" pencil (which contains no lead) was invented in 1564 when a huge graphite mine was discovered in England. The pure graphite was sawn into sheets and then cut into square rods. The graphite rods were inserted into hand-carved wooden holders, forming pencils. They were called lead pencils by mistake - at the time, graphite was called black lead. It looked and acted like lead, and it was not known at the time that graphite consisted of carbon and not lead. The English had a monopoly on the production of pencils since no other pure graphite mines were known and no one had yet found a way to make graphite sticks.
