Secretary's Scribbles May 2019

By the time this issue arrives it's going to be just about June, that's 6 months of 2019 almost completed and 9 runs undertaken. What an exciting variety of destinations we've already visited, uphill and down dale and from coast to bush. We still have a number of dates to fill over the next few months so put your hand up and please contact Alex to arrange your preferred date.

The Kilcoy and Linville run set by Jenny & Stan on 5th May had a good turnout considering a number of members were away that weekend. 10 vehicles, 17 members and 1 visitor took to the road for what no doubt would have been an enjoyable drive. Another plus to the day would have been the pub grub available at the Linville Hotel.

Great to see members are making use of the new Impromptu Events available to people who have nominated, this certainly allows the opportunity to drive your classic at a time that suits your requirement.

PRESIDENT's PREAMBLE JUNE 2019 Issue

Apologies members we have been away for the last couple of runs and out of touch. Need to let our long term members know that Ita Davies passed away peacefully early May. Had a phone call from one of her daughters whilst we were away. She said they didn't want anyone from CHACC at Ita's funeral. It was to be a private family affair. She requested we do let members know in our next newsletter. Hudson is still in the home but unfortunately oblivious to Ita's passing and his surrounds. He is still health wise okay, just wouldn't know you if you went to visit. So sad. We wish Ita's and Huddy's family our condolences in their loss and to let them know what great CHACC members they both were.

Also to let you know Peter Rohan gave his family and us quite a scare on Good Friday. Had a couple of mini strokes before he decided it was time to call for an ambulance. Initially at Redcliffe, they transferred him to Prince Charles. After three weeks and many tests, they decided to let him home after Anzac Day. Still not fully recovered but managing okay. Just needs to take it easy now.

We apologise for the late June SCN but our Editor (Aileen) has had difficulty obtaining input. It appears we still need some volunteers for later in the year runs. Please contact Alex if you have an idea but don't feel like doing the run itself

Cheers Kim

Club Run 5th May 2019.

Here we go again, another run report that no-wants to write so it's up to your faithful old correspondent to do the hard yards again on behalf of all of you. Anyway, we were off to a really great little country pub where the meals were cheap and the portions big. Great value and no need for a Sunday night dinner!

A reasonably good rollup was in evidence even though Scotty & Aldona along with Kim & Carol obviously had better things to do. But Lindsay and Valmay were welcome starters along with Phyllis and Don Streeton – good to see them too. Eldon & Joyce Till managed an appearance and the “Mustang brigade” was ably represented by Ken McFarlane & Barbara as Peter & Toosje decided their 4WD Nissan was more suitable (?). The “blue beast” couldn't be laid up – Fords don't do that!

So, rather than take the time honoured route straight up along the D'agular, Stan and Jenny had devised an alternate route via Bellmere and Old North Rd which was a much more interesting way to get to Wamuran. Once there it was pretty straightforward drive to just before Woodford where we took a little detour into Iron Bark Drive which eventually got us onto Neurum Rd from Walker's Lane.

This way allowed us to miss the roadworks on the D'agular and we explored the road through neurum, Mt Archer, Villeneuve and Glenfern then back to the main highway and morning tea at Yowie Park. Suitably refreshed and de-watered, it was a straight drive on the D'agular to Moore then turning off on the road to Linville. Going alongside the Brisbane River and towards Blackbutt Creek we finally reached the Linville Inn, and headed inside.

A great little country pub with loads of atmosphere and a smiling publican, who was happy to dispense whatever thirst-quenching potion you desired, whilst taking lunch orders from an interesting “comfort food” menu. McDonald's could take lessons from them on what a hamburger should be!

The question of a meeting arose and the Vic-President (David Alsbury) opined that “We have no President, no Secretary, and no Treasurer, so unless anyone has some “General Business” to discuss, we have nothing to talk about so let's just keep talking and relaxing”.

This motion from the floor was passed unanimously on the voices, so we just enjoyed the atmosphere and bonhomie till it was time to head homeward.

All in all a great and enjoyable run, a fantastic destination and a damn good time had by all who came along. Many thanks to Stan & Jenny for such a pleasant days outing...Well done!

CHACC Run Report – Wednesday 22nd May 2019

To Club Pine Rivers - Lawnton

My day started with a 7k walk at Strathpine Shopping center arriving at 6.10am for my 6 laps inside the Centre. Recent mornings have started with a shower of rain but today as the Sun Rose in the East to enlighten the day and I could see Blue skies above indicating a great day for a drive with the top down. Home at 8.15am for breakfast and vehicle rotation and trying not to forget something like my Camera and Run sheets. Last run I forgot my cup. Made it to Sundowner Hotel by 10 am to find Peter and Toosje already there in his impressive Mustang. This car has been missing the last few runs due to an upset engine. I had booked for 15 for lunch and was wondering how many were going to turn up. Very pleased to see 13 members turned up. (Peter/Toosje - Mustang, Scotty/Aldona – E Type, Alex - MGB, John/Jan – FE Holden with new Chrome, Andy/Sally – Ford Ute wet weather vehicle, Leo/Marge – Vanden Plas Rolls, Me - MGB and new member Martin Dixon HZ Holden).

It a bit of a challenge to set a run between Caboolture and Lawnton with the aim to stay away from Traffic Lights, Heavy Traffic, Rain and Suburbia. There are not enough roads the lead that way, so we headed to Bribie then Toorbul and West to Wamuran via Twin View Road passed pine forests and pineapple farms. Crossing over the D Aguilar Highway to Campbells pocket road heading for Mt. Mee and then across to North Road and behind Caboolture to Narangba and then across to Dayboro Road to Lawnton.

We did this in around 1hour 35 minutes and arrived at the Club at 12.10pm.

We had a few incidents on the way, some not to be mentioned but Alex did see a XJ6 with some work to be done on front end, a Truck that had run down an embankment in Oakey Flat Road with the driver sitting head in hands. BUGGER! Your leader Mr. Slow was 100 meters from being taken out by 4-wheel drive on the wrong side of road. We all managed to stay together until traffic at Petrie. On arriving at club we found our table and you leader explained the meal ordering process and we proceeded to order our \$15 meals that included a large Main, Cold/Hot Drink and a small desert. The meal only took 10 to 15 minutes to arrive and all were happy, Food again. Once consumed we retired to the Café to enjoy more inspired conversation and Coffee while Leo and Marge headed home. We departed at 3 pm and by all accounts we all enjoyed a great day out.

I arrived home at 4 pm and I was totally stuffed. Being a run organizer is certainly tiring.

This Month's Car Facts

An internal combustion engine is an engine in which combustion, or the burning of fuel, occurs on the inside. It is a machine that makes large pressure increases inside a sealed box (cylinder). The pressure increase pushes a rod which is attached to a wheel. The rod pushes the wheel and makes it spin around. The spinning wheel is attached to other wheels, such as four car wheels, with a belt or a chain. The engine is very strong and can make all the wheels move. Engines need oil to make them slippery or the moving parts would grind together and stick. Parts of a car engine are measured to 0.01 of a millimeter and some engine parts fit together very tightly. Internal differs from external combustion where the fire is outside the engine, such as a steam engine. Most road vehicles use the internal combustion engine today, and most of those use the four-stroke engine. Rocket and jet engines are combustion engines but they do not turn wheels. The fire in a rocket combustion engine is so strong that it blows a mighty wind out the back, which pushes the rocket forward.
